INTRODUCTION

This report contains nine tables that provide supplementary data to nine tables published in Historical tables for Census Education Data 1971, 1976 and 1981, (Catalogue 13-579). For ease of reference, table numbers in this report match the table numbers in the published historical bulletin (i.e., Tables 4 to 12 inclusive). The table numbers in this supplementary publication carry the suffix "A".

The main purpose of providing these supplementary data is to give analysts statistical information which could enhance the utilization and interpretation of the summary statistical information published in Catalogue 13-579. Those familiar with the contents of the latter will have noted that the summary statistics such as median years of schooling, labour force participation rates and average income do not indicate the size of the subpopulations referred to. The supplementary figures provided here fill in that information gap.

This report also presents a corrected version of Table 9 in Catalogue 13-579, which contained inaccuracies in the computation of average 1980 income for some of the highest level of schooling categories. This corrected table is shown in the Appendix.

For further information regarding the supplementary figures or the historical bulletin, inquiries should be directed to the Housing, Family and Social Division, Jean Talon Bldg., Ottawa, Ontario, K1A OT6 (613-991-2556).

Ce bulletin présente neuf tableaux renfermant des données supplémentaires à celles de neuf autres tableaux publiés dans le bulletin Tableaux chronologiques de données sur l'éducation, recensements de 1971, 1976 et 1981, (nº 13-579 au catalogue). Pour faciliter la consultation simultanée des deux documents, les tableaux du présent bulletin portent les mêmes numéros que ceux du bulletin chronologique (c'est-à-dire tableaux 4 à 12 inclusivement), mais on leur a ajouté le suffixe "A" pour les distinguer de ces derniers.

Le principal objet de cette publication supplémentaire est de fournir aux analystes des renseignements statistiques susceptibles d'améliorer l'emploi et l'interprétation des sommaires parus dans le bulletin nº 13-579. Les personnes qui connaissent bien le bulletin nº 13-579 auront sans doute constaté que les sommaires statistiques qu'il contient, notamment les années médianes de scolarité, le taux d'activité et le revenu moyen, n'indiquent pas la taille des sous-populations auxquelles ces chiffres se rapportent. Les données supplémentaires du présent bulletin comblent cette lacune.

En outre, ce bulletin-ci présente une version corrigée du tableau 9 de la publication nº 13-579, qui comporte des inexactitudes dans le calcul du revenu moyen de 1980 dans le cas de certaines catégories possédant le plus haut niveau de scolarité. La version corrigée de ce tableau figure comme annexe à la fin du présent document.

Pour obtenir de plus amples renseignements au sujet des chiffres supplémentaires ou du bulletin chronologique, prière de s'adresser à la Division des statistiques sociales, du logement et des familles, Immeuble Jean Talon, Ottawa (Ontario) K1A OT6 (613-991-2556).

In 1981, the total figures for place of birth include some persons born outside of Canada who were nonetheless non-immigrants. Therefore, the period of immigration figures may not add up to the place of birth subtotals.
 En 1981, les totaux relatifs au lieu de naissance comprennent certaines personnes nées en dehors du Canada qui étaient toutefois des non-immigrants. Donc, il est possible que les chiffres de la période d'immigration ne correspondent pas aux totaux partiels du lieu de naissance.
 For the 1971 data, only the first five months of 1971 are included. For the 1981 data, the whole 1971 year is included, and only the first five months of 1981 are included.
 Pour les données de 1971, seulement les cinq premiers mois de 1971 sont pris en compte alors que pour les données de 1981, c'est toute l'année 1971 qui l'a été, et seulement les cinq premiers mois en 1981.
 Total counts for this subgroup for 1981 do not include non-immigrants born outside Canada.
 Pour les données de 1981, les totaux de ce sous-groupe ne comprennent pas les non-immigrants nés en dehors du Canada.

(1) Excludes unemployed persons 15 years and over who have never worked or who had worked only prior to January 1, 1970 or January 1, 1980, as applicable. The 1981 labour force has been defined to be as comparable as possible with that of the 1971 Census. - Ne comprend pas les personnes en chômage de 15 ans et plus qui n'ont jamais travaillé ou ont travaillé seulement avant le 1er janvier 1970 ou le 1er janvier 1980, selon le cas. La population active pour 1981 a été définie de façon à la rendre aussi comparable que possible à celle de 1971. ② In 1971, postsecondary referred to years of university attended, and to other years of schooling attended since secondary school. In 1976, postsecondary referred to years of university completed and to years of postsecondary non-university completed. Examples of the latter include teacher's college, nursing school, completed at university and at institutions other than university, secondary (high) or elementary school. Examples of the latter include community colleges, institutes of technology, CEGEPs (general and professional), private trade schools, private business colleges and diploma schools of nursing. Also in 1981, the designation postsecondary non-university has been referred by the term other non-university. - En 1971, "scolarité postsecondaire" désignait les années d'études universitaires terminées ainsi que les années d'études postsecondaire" désignait les années d'études universitaires terminées ainsi que les années d'études postsecondaires non universitaires terminées; dans ce dernier cas, il s'agit, par exemple, des années passées dans une école normale, une école de sciences infirmières, un collège communautaire (professionnel) et technique) ou dans un cégep (enseignement professionnel). En 1981, "scolarité postsecondaire" désignait les années d'études universitaires terminées ainsi que les années de scolarité terminées dans un établissement autre qu'une université, une école secondaire ou une école primaire, par exemple, un collège communautaire, un instit

⁽¹⁾ In 1971, postsecondary referred to years of university attended, and to other years of schooling attended since secondary school.

In 1981, postsecondary referred to years of schooling completed at university and at institutions other than university, secondary (high) or elementary school. Examples of the latter include community colleges, institutes of technology, CEGEPs (general and professional), private trade schools, private business colleges and diploma schools of nursing. Also in 1981, the designation postsecondary non-university has been referred by the term other non-university.

(1) En 1971, "scolarité postsecondaire" désignait les années d'études universitaires et les autres années de scolarité après les études secondaires. En 1981, "scolarité postsecondaire" désignait les années d'études universitaires terminées ainsi que les années de scolarité terminées dans un établissement autre qu'une université, une école secondaire ou une école primaire, par exemple, un collège communautaire, un institut de technologie, un cégep (enseignement général et professionnel), une école de métiers privée, un collège commercial privé ou une école de sciences infirmières décernant un diplôme. En 1981, l'expression "postsecondaire non universitaire" a été remplacée par "autres études non universitaires".

⁽¹⁾ Excludes unemployed persons 15 years and over who have never worked or who had worked only prior to January 1, 1970 or January 1, 1980, as applicable. "Labour force and occupation" for 1981 have been defined in terms of 1971 to be as comparable as possible. The data will differ slightly from those defined on a 1981 basis.
(1) Ne comprend pas les personnes en chômage de 15 ans et plus qui n'ont jamais travaillé ou ont travaillé seulement avant le 1er janvier 1970 ou le 1er janvier 1980, selon le cas. "Population active et profession" pour 1981 ont été définies en fonction de 1971 de façon à être aussi comparables que possible. Ces données différeront quelque peu de celles définies sur la base de 1981.

⁽¹⁾ Excludes unemployed persons 15 years of age and over, who have never worked or who had worked only prior to January 1, 1970 or January 1, 1980, as applicable. The 1981 labour force has been defined to be as comparable as possible with that of the 1971 Census. The industry division totals do not include the imputations for the "Not stated"; these are shown as one group in accordance with the 1971 practice. Data will therefore differ slightly from those defined on a 1981 basis.

(1) Ne comprend pas les châmeurs de 15 ans et plus qui n'ont jamais travaillé ou ont travaillé seulement avant le 1er janvier 1980, selon le cas. La population active pour 1981 a été définie de façon à la rendre aussi comparable que possible à celle de 1971. Les totaux des divisions d'activité économique ne comprennent pas les imputations aux "non déclarés"; ceux-ci sont regroupés dans une catégorie comme on l'avait fait en 1971. Ces données différeront donc quelque peu de celles qui sont définies sur la base de 1981.

⁽¹⁾ Excludes unemployed persons 15 years of age and over, who have never worked or who had worked only prior to January 1, 1970 or January 1, 1980, as applicable. The 1981 labour force has been defined to be as comparable as possible with that of the 1971 Census.

(1) Ne comprend pas les chômeurs de 15 ans et plus qui n'ont jamais travaillé ou ont travaillé seulement avant le 1er janvier 1970 ou le 1er janvier 1980, selon le cas. La population active pour 1981 a été définie de façon à la rendre aussi comparable que possible à celle du recensement de 1971.

(2) Only the counts for the "Worked in 1970-1980" Labour Force populations are shown. The counts for the "Did not work in 1970-1980" in the median table in Catalogue 13-579 only contained those who worked in 1971-1981 and were thus not complete counts of the remainder in the labour force who did not work in 1970-1980. Therefore, comparisons of the medians in Table 12 should be applied only to the counts shown in Table 12A.

(2) Seuls les chiffres pour la population active "ayant travaillé en 1970-1980" sont indiqués. Les chiffres du tableau sur le nombre médian d'années de scolarité dans la publication no 13-579 pour la population active "n'ayant pas travaillé en 1970-1980" ne prenaient en compte que les personnes qui avaient travaillé en 1971-1981 et ne représentaient donc pas l'ensemble de la population active n'ayant pas travaillé en 1970-1980. Ainsi, les comparaisons des médians indiqués au tableau 12 ne devraient s'appliquer qu'aux chiffres indiqués au tableau 12A.

⁽¹⁾ In 1971, postsecondary referred to years of university attended, and to other years of schooling attended since secondary school.

In 1981, postsecondary referred to years of schooling completed at university and at institutions other than university, secondary (high) or elementary school. Examples of the latter include community colleges, institutes of technology, CEGEPs (general and professional) private trade schools, private business colleges and diploma schools of nursing. Also in 1981, the designation postsecondary non-university has been referred by the term other non-university.

⁽¹⁾ En 1971, "scolarité postsecondaire" désignait les années d'études universitaires et les autres années de scolarité après les études secondaires.

En 1981, "scolarité postsecondaire" désignait les années d'études universitaires terminées ainsi que les années de scolarité terminées dans un établissement autre qu'une université, une école secondaire ou une école primaire, par exemple, un collège communautaire, un institut de technologie, un cégep (enseignement général et professionnel), une école de métiers privée, un collège commercial privé ou une école de sciences infirmières décernant un diplôme. En 1981, l'expression "postsecondaire non universitaire" a été remplacée par "autres études non universitaires".
